

Homework 1:

تاریخ تحویل : ۱۳۹۲/۱۲/۰۲

- Please go to <http://www.socialsecurity.gov/cgi-bin/popularnames.cgi>
- Save the page in your computer
- Open the file with
- Read all names and ranks and counts
- Use Dictionary to save names and ranks so the keys is names
- Then save all names in one file from 1990 – 2012 and then write a function that give a name and output is that's name with count in 1990 – 2012 sorted by years

```
import sys
f = open(filename, 'rU')
text = f.read()
F = open(filename, 'w')
f.write(text)
```
